## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on December 17, 2002. It is noted, however, that applicant has not filed a certified copy of the 2002-365357 application as required by 35 U.S.C. 119(b).

### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: Claims 1-12 are allowed, as none of the prior art of record, alone, nor in combination, discloses or suggests an optical pickup comprising a laser source power control means for controlling power of a laser source to switch operation modes between a low-power operation mode in which a single-layer disk is reproduced or a disk is reproduced at a normal speed and a high-power operation mode in which a bi-layer disk is reproduced or a disk is reproduced at a double speed; and attenuating means for attenuating, only in the low-power operation mode, a laser beam emitted by a laser source onto the optical disk, wherein the attenuating means includes a polarization beam splitter disposed in an optical path between the laser source and the optical disk, and a polarization rotating element disposed between the laser source and the polarization beam splitter, and a transmittance of a P polarized component of the laser beam passing through the polarization beam splitter in the low-power operation mode is 20% to 50% of that in the high-power operation mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
